World’s smallest hearing aid connects you to life’s biggest moments

Try the new Audéo S SMART – the world's smallest hearing system that wirelessly connects to the TV and telephone. As soon as you hold the telephone to your ear, you are able to hear the conversation in both ears!

What's more, Phonak Audéo S SMART can automatically adapt to the ever-changing environments of your life – from a special one-on-one date with a loved one to a noisy restaurant. The Phonak Audeo S SMART lets you choose the ideal setting with a push of a button. The hearing aid is so intuitive that the next time around, the setting automatically changes for you. There are additional features so call today to find out more!

Now you see it...

Now you don't

PHONAK life is on

Moments you shouldn't miss because of hearing loss...

Grandchildren's precious little voices...

Time with family and friends

Phonak Audeo S SMART is the world's smallest wireless hearing aid. With it come the latest features from the new line of hearing devices from Phonak – Phonak Spice Generation.

- Automatically zoom in on voices in front of you
- Focus even closer on single voice when needed
- Enjoy wireless connectivity to cell phones, MP3 players and more with Phonak wireless accessories
- Choose from several looks and performance levels

Take This Simple Quiz

A hearing loss may be holding you back from enjoying life to its fullest!

☐ YES ☐ NO 1. Do you often ask people to repeat themselves?

☐ YES ☐ NO 5. Does your spouse/family think the TV or radio volume is too loud?

☐ YES ☐ NO 2. Do you feel you can hear people but sometimes can't understand them? Having trouble understanding high-pitched sounds is one of the first signs of hearing loss. Sounds such as: women's & children's voices or sounds of words like "dime", "time", "bake" and "take".

☐ YES ☐ NO 6. Do you avoid group meetings, social functions or family gatherings where listening may be difficult?

☐ YES ☐ NO 3. Are you missing key words while having conversation in a crowded restaurant or at family gatherings?

☐ YES ☐ NO 7. Do you have trouble hearing when talking on the phone?

☐ YES ☐ NO 4. Do you have ringing in the ears or other head noises (buzzing, crickets, hissing, etc.)? Tinnitus often accompanies hearing loss, but not always, and may be the ears' way of saying "ouch!"

☐ YES ☐ NO 8. Do you feel like you may have excessive wax in your ears?

If you answered yes to any of the above, this event may make a difference in your life!

Call to reserve your spot for a FREE hearing screening and to learn about today's digital hearing aid technology.

Space is limited and is on a first come - first serve basis so call today!

We look forward to *hearing* from you soon!

Our staff is committed to providing you with the best technology for your communication needs with excellent customer service at your follow up visits.

Always connected. Anywhere, every time.

TV with TVLink and iCom

Audéo S SMART

Leading an active life means interfacing with telephones, televisions, MP3 players, computers, stereos and other audio sources. With iCom and Bluetooth™ connectivity, you can fully enjoy all the advantages of modern communication and entertainment systems through your Audéo S SMART hearing instruments.

Ask about the NEW TVLink Transmitter, which transmits sound directly from your television to your hearing aids wirelessly.
